How to Order Custom Full Depth Cabinets (28 ½" deep)

There are tens of thousands of ways to configure a Lista cabinet. Our modular building block system means that your cabinets can be configured to exactly suit your requirements.

By walking through the steps summarized on the facing page and shown on the following four pages, you can create cabinets that will exactly fit your own specific needs.

Row of SC cabinets with plastic laminate counter top.

Mobile MP cabinets make perfect toolboxes.

MW cabinets with stainless steel counter top.

DW drawer/door cabinets stacked above pairs of SC cabinets.

TO ORDER AN EASY-ORDER COMBINATION:
(housing with preconfigured drawers and option of drawer interior sets)

	CABINETS	MOBILE CABINETS	DRAWER INTERIOR SETS
NW	pages 14-15	page 16	page 17
MP	pages 18-19	page 20	page 21
SC	pages 22-24	page 25	pages 26-27
MW	pages 28-29	page 30	page 31
DW	pages 32-33	page 34	page 35

STEPS TO ORDER A CUSTOM CONFIGURED FULL DEPTH CABINET

1 Select cabinet housing

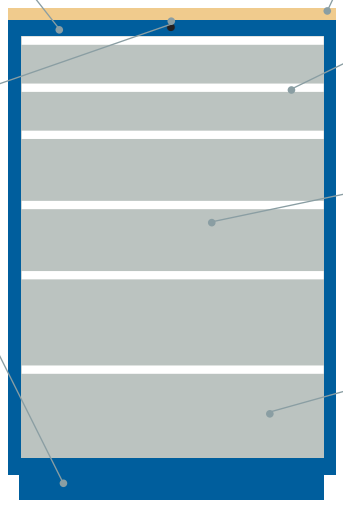
Select the particular cabinet housing that best suits your needs. When choosing your housing height, keep in mind the cabinet top's potential use as a worksurface. **See page 38.**

2 Select a lock

Choose from a wide array of locking options. **See page 39.**

3 Select a cabinet base (optional)

A number of optional bases to suit a wide variety of uses. **See page 39.**



4 Select a cabinet top or counter top (optional)

Top descriptions can be found on **page 67**; information about counter tops to span rows of cabinets is on **page 107**.

5 Select drawers, shelves, roll-out trays and doors

Drawers, shelves and roll-out trays can be used in any sequence or combination you wish. **See pages 40-41.**

6 Select drawer partitions and dividers (optional)

Choose from the Easy-Order drawer interior sets shown in each cabinet's Easy-Order section, or order custom drawer partitions and dividers **(page 118)**. Choose from many accessories **(pages 119-122).**

7 Select colors

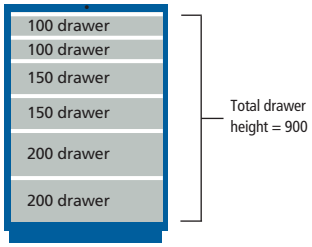
Select color from the chart on **page 41**. Housing and drawer fronts can be different colors but drawer interiors are always gray.

The total drawer and/or door model numbers must add up to the model number of the housing.

EXAMPLES:

Model 900 Housing

(2) 100 drawers	=	200
(2) 150 drawers	=	300
(2) 200 drawers	=	400
		900



(2) 150 drawers	=	300
(1) 600 door	=	600
		900

2 Select lock and keying options (choose from additional selections on page 62)

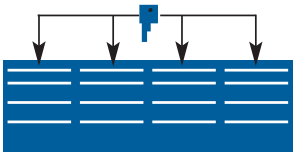
If you have locking and security needs other than the individual lock (lock and 2 keys) that comes with all cabinets, select from the options below or see page 62.

Individual Lock (RG)

Cabinets come with an individual lock and 2 keys. Each cabinet lock is keyed differently.

No Lock (NL)

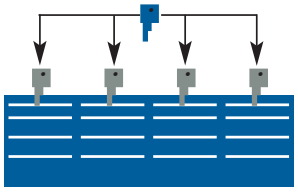
Specify if no cylinder lock is desired for cabinet housing. Cabinet will still include PrevenTip® one-drawer-at-a-time safety feature. Not available for double hinged door cabinets.



Keyed Alike Lock (KA)

All cabinets have identical locks, each with 2 keys; the same key opens all cabinets. Each cabinet in the keyed alike group must have keyed alike (KA) specified on the order. Cabinets containing drawers and doors will only be keyed alike if specified.

PART NO.	LOCK TYPE
KA	keyed alike lock



Master Keyed Lock (MA)

Each cabinet has a different lock with 2 keys. Each cabinet in the master key group must have master keyed lock (MA) specified on the order. Master key (MK) that opens all locks must be ordered separately.

PART NO.	LOCK TYPE
MA	master lock
MK	group master key
GMK	grand master key

3 Select optional cabinet base

Fork Truck Base

Steel fork truck base permits moving of fully loaded cabinets. Base has snap-on front and rear covers, and is recessed 1 1/8" (30mm) from the front of the housing. Bases are pre-punched to allow stacking. Color: to match housing.

Pallet Truck Base

Steel pallet truck base permits moving of fully loaded cabinets with a hand pallet truck. Base has snap-on front and rear covers, and is recessed 1 1/8" (30mm) each from the front and back of the housing. Color: to match housing.

Frame Base

Steel base is used to bring cabinets up to desired work height. Base is recessed 1 1/8" (30mm) from the front of the housing. Color: to match housing.

Mobile Caster Base

A set of 2 fixed and 2 swivel casters. Each swivel caster has an individual wheel lock. Casters are factory mounted to the base. (See page 66 for other mobile accessories.)

Wet Clean Base

Allows for easy cleaning below housing in areas where floors are often washed (such as labs and hospitals), or where wet floors are an issue. Raises cabinet housing 4 9/16" above floor. Individual leg height is further adjustable to allow for leveling (up to 1 3/4" additional height), even on extremely uneven surfaces. Cabinet can be lifted and moved with a hand pallet truck.

4 Select optional cabinet top (individual cabinet tops page 67; counter tops for multiple cabinets page 107)

5 Select drawers, shelves and/or roll-out trays

Drawers, shelves and roll-out trays can be arranged and re-arranged in a cabinet housing in any sequence. **See the graphic on page 37 for information on configuring the correct height(s) of drawers and doors to fit the housing you have selected.**

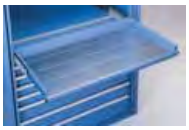
Drawers

Drawers are 100% full extension, allowing complete use of the furthest corners and easy access to all contents. Each drawer has a maximum load capacity of either 440 lb. (200kg) or 165 lb. (75kg).

Shelves

Fixed bottom shelves and adjustable upper shelves can be moved up or down in 1" increments. Vertical dividers are available to sub-divide shelves. Shelf cabinets are often stacked above drawer cabinets for maximum space savings. Maximum load capacity of 440 lbs. (200kg) evenly distributed.

Roll-Out Trays



Roll-out trays allow easy access to stored items, even in the farthest corner. 100% full extension, 440 lb. (200 kg) or 165 lb. (75kg) maximum load capacity.

5 Select cabinet doors

Flush Hinged Door

Single door protects cabinet contents. Door is provided with integrated handle (reversible in field to allow door to open in opposite direction), individual lock (RG) and 2 keys. **Only bottom and adjustable shelves may be installed behind flush doors – no drawers or roll-out trays, except for MP-TCN roll-out trays in MP width cabinets.**

Retractable Door

Door slides out and back, stored out of the way when not in use. Door is provided with handles, individual lock (RG) and 2 keys. **Only bottom and adjustable shelves may be installed behind retractable doors – no drawers or roll-out trays.**

Double Hinged Door Cabinets

To order double hinged door cabinets, see the ordering information on page 38.

Sliding and Hinged Door Shelf Cabinets

For ordering information on sliding and hinged door shelf cabinets, see pages 68-69.

How to Order Custom Shallow Depth Cabinets (22 ½" deep)

There are tens of thousands of ways to configure a Lista cabinet. Our modular building block system means that your cabinets can be configured to exactly suit your requirements.

By walking through the steps summarized on the facing page and shown on the following four pages, you can create shallow depth cabinets that will exactly fit your own specific needs.

HS cabinets with stainless steel counter top.

Mobile HS (left) and ST (right) cabinets are versatile toolboxes.

High-density HS drawers.

Stacked HS shelf and drawer cabinets allow narrow aisles.

TO ORDER AN EASY-ORDER COMBINATION:

(housing with preconfigured drawers and option of drawer interior sets)

	CABINETS	MOBILE CABINETS	DRAWER INTERIOR SETS
CL	pages 44-45	page 46	page 47
ST	pages 48-49	page 50	page 51

STEPS TO ORDER A CUSTOM CONFIGURED SHALLOW DEPTH CABINET

1 Select cabinet housing

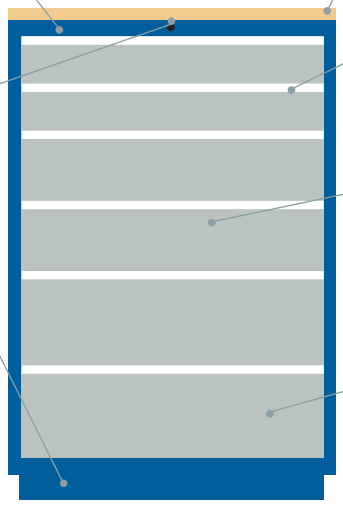
Select the particular cabinet housing that best suits your needs. When choosing your housing height, keep in mind the cabinet top's potential use as a worksurface. **See page 58.**

2 Select a lock

Choose from a wide array of locking options. **See page 59.**

3 Select a cabinet base (optional)

A number of optional bases to suit a wide variety of uses. **See page 59.**



4 Select a cabinet top or counter top (optional)

Top descriptions can be found on **page 67**; information about counter tops to span rows of cabinets is on **page 107**.

5 Select drawers, shelves, roll-out trays and doors

Drawers, shelves and roll-out trays can be used in any sequence or combination you wish. **See pages 60-61.**

6 Select drawer partitions and dividers (optional)

Choose from the Easy-Order drawer interior sets shown in each cabinet's Easy-Order section, or order custom drawer partitions and dividers **(page 118)**. Choose from many accessories **(pages 119-122).**

7 Select colors

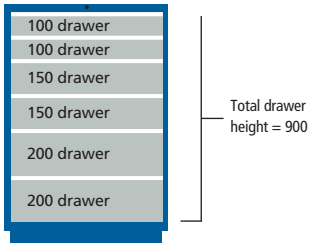
Select color from the chart on **page 61**. Housing and drawer fronts can be different colors but drawer interiors are always gray.

The total drawer and/or door model numbers must add up to the model number of the housing.

EXAMPLES:

Model 900 Housing

(2) 100 drawers	=	200
(2) 150 drawers	=	300
(2) 200 drawers	=	400
		900



(2) 150 drawers	=	300
(1) 600 door	=	600
		900

2 Select lock and keying options (choose from additional selections on page 62)

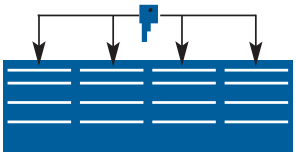
If you have locking and security needs other than the individual lock (lock and 2 keys) that comes with all cabinets, select from the options below or see page 62.

Individual Lock (RG)

Cabinets come with an individual lock and 2 keys. Each cabinet lock is keyed differently.

No Lock (NL)

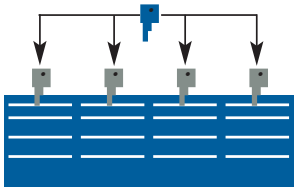
Specify if no cylinder lock is desired for cabinet housing. Cabinet will still include PrevenTip® one-drawer-at-a-time safety feature. Not available for double hinged door cabinets.



Keyed Alike Lock (KA)

All cabinets have identical locks, each with 2 keys; the same key opens all cabinets. Each cabinet in the keyed alike group must have keyed alike (KA) specified on the order. Cabinets containing drawers and doors will only be keyed alike if specified.

PART NO.	LOCK TYPE
KA	keyed alike lock



Master Keyed Lock (MA)

Each cabinet has a different lock with 2 keys. Each cabinet in the master key group must have master keyed lock (MA) specified on the order. Master key (MK) that opens all locks must be ordered separately.

PART NO.	LOCK TYPE
MA	master lock
MK	group master key
GMK	grand master key

3 Select optional cabinet base

Fork Truck Base

Steel fork truck base permits moving of fully loaded cabinets. Base has snap-on front and rear covers, and is recessed 1 1/8" (30mm) from the front of the housing. Bases are pre-punched to allow stacking. Color: to match housing.

Pallet Truck Base

Steel pallet truck base permits moving of fully loaded cabinets with a hand pallet truck. Base has snap-on front and rear covers, and is recessed 1 1/8" (30mm) each from the front and back of the housing. Color: to match housing.

Frame Base

Steel base is used to bring cabinets up to desired work height. Base is recessed 1 1/8" (30mm) from the front of the housing. Color: to match housing.

Mobile Caster Base

A set of 2 fixed and 2 swivel casters. Each swivel caster has an individual wheel lock. Casters are factory mounted to the base. (See page 66 for other mobile accessories.)

Wet Clean Base

Allows for easy cleaning below housing in areas where floors are often washed (such as labs and hospitals), or where wet floors are an issue. Raises cabinet housing 4 9/16" above floor. Individual leg height is further adjustable to allow for leveling (up to 1 3/4" additional height), even on extremely uneven surfaces. Cabinet can be lifted and moved with a hand pallet truck.

TYPE	OVERALL HEIGHT	CASTER DIMEN.	WEIGHT CAPACITY	CL	ST	HS

4 Select optional cabinet top (individual cabinet tops page 67; counter tops for multiple cabinets page 107)

5 Select drawers, shelves and/or roll-out trays

Drawers, shelves and roll-out trays can be arranged and re-arranged in a cabinet housing in any sequence. **See the graphic on page 57 for information on configuring the correct height(s) of drawers and doors to fit the housing you have selected.**

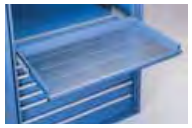
Drawers

Drawers are 100% full extension, allowing complete use of the furthest corners and easy access to all contents. Each drawer has a maximum load capacity of either 440 lb. (200kg) or 165 lb. (75kg).

Shelves

Fixed bottom shelves and adjustable upper shelves can be moved up or down in 1" increments. Vertical dividers are available to sub-divide shelves. Shelf cabinets are often stacked above drawer cabinets for maximum space savings. Maximum load capacity of 440 lbs. (200kg) evenly distributed.

Roll-Out Trays



Roll-out trays allow easy access to stored items, even in the farthest corner. 100% full extension, 440 lb. (200 kg) or 165 lb. (75kg) maximum load capacity.

DRAWER FOOTPRINTS (usable inside widths shown below – all shallow depth drawers are 18" / 459mm / 27 units deep)

5 Select cabinet doors

Flush Hinged Door

Single door protects cabinet contents. Door is provided with integrated handle (reversible in field to allow door to open in opposite direction), individual lock (RG) and 2 keys. **Only bottom and adjustable shelves may be installed behind flush doors – no drawers or roll-out trays.**

Retractable Door

Door slides out and back, stored out of the way when not in use. Door is provided with handles, individual lock (RG) and 2 keys. **Only bottom and adjustable shelves may be installed behind retractable doors – no drawers or roll-out trays.**

Double Hinged Door Cabinets

To order double hinged door cabinets, see the ordering information on page 58.

Sliding and Hinged Door Shelf Cabinets

For ordering information on sliding and hinged door shelf cabinets, see pages 68-69.

6 Select drawer partitions and dividers

Drawer interior sets are located in corresponding Easy-Order footprint section (see chart on page 56). Additional drawer accessories are on pages 119-122.

7 Select colors

Housings and drawer fronts can be different colors but drawer interiors are always gray. Color differences exist between color samples and actual finishes. Please contact your Lista representative for accurate color matching. Custom colors are available and will be quoted on request.

COLOR	Beige	Bright Blue	Black	Classic Blue	Dark Gray	Green	Light Gray	Red	Sand	White
CODE	BE	BB*	BK*	CB	GR	GG	LG*	NR	SN	FW

**Available with ESD properties. To specify ESD paint, add prefix "ESD" to paint part number. For ESD paint specifications, see Lista's Workbench and Workspace Furniture Catalog.*
